SMART WASTE BIN

NOVERA TEAM

description

The Novera Smart Waste Bin is an advanced decentralized sorting system built on Edge AI principles. By replacing cloud-dependent processing with local on-device inference, it categorizes and routes waste into isolated compartments via a dual-axis mechanism in real-time. This offline hardware-software ecosystem serves as a resilient baseline for future sustainable smart environments

Team members

1. Mohamed Abdelkarim
2. Amer Mohamed
3. Shahd Mostafa
4. Mennat Allah Tamer
5. Hassan Gamal
6. Doaa Salah
7. Abdelrahman Mohamed
8. Yomna Ayman
9. Abdelaziz Arafa
10. Abdullah Mohamed
11. Abdullah Ahmed
12. Arwa Alaa
13. Mohamed Mahmoud
14. Ashjan Abdelsattar
15. Abdelrahman Adel
